

ENVIRONMENTAL & SOCIAL BENEFITS

Our experience

We have been active in the establishment of the emissions reduction market in Asia and Europe since 2011.

We are currently involved in four CDM projects.

Direct projects

Talimarjan Clean Generation Project emissions reduction 8,361,518 t CO₂e.

Tashkent Power Project emissions reduction 3,903,428 t CO₂e.

Consulted projects

Navoi I emissions reduction 3,428,883 t CO₂e.

Navoi II emissions reduction 424,728 t CO₂e.

Our services

Identification of potential CDM projects, identify the methodology, establish the baseline case

Development of the GHG (greenhouse gas) emission reduction documentation in accordance with international rules

Advisory services in contract negotiations with the validation company and executive board

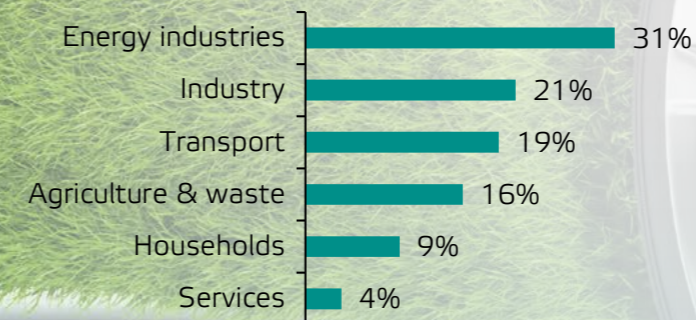

Marketing of GHG emission reductions on behalf of the project owner

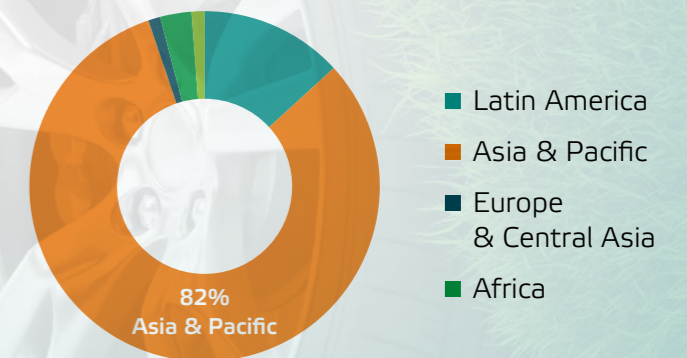

Clean development mechanism (CDM)

Article 12 of the Kyoto Protocol allows a country with an emission-reduction, or emission-limitation commitment under the Protocol to develop an emission-reduction project in a developing country. This is described as a CDM.
